

WONDERLAND SHIRE MUSIC FESTIVAL EVALUATION

Cultural outcome: sense of aesthetic enrichment

Social outcome: connection to others in the community (bridging capital)

Hi, I'm [interviewerName] and I am undertaking the evaluation of the Music festival on behalf of Wonderland Shire so that they can understand more about the outcomes of their activities.

I'd like to ask you a few questions about the impact of this activity on you. We don't need any information that will identify you. Do you have a few moments to speak to me?

1. Aesthetic enrichment: We are interested in whether you have experienced aesthetic enrichment through participating in this activity.

By aesthetic enrichment, we mean an experience that comes through the senses that is special and outside the everyday. This might include being moved or challenged through feelings such as beauty, awe, discomfort, joy or wonder.

Through your participation in this activity have you experienced aesthetic enrichment?

[If interviewee answered no to the previous question, mark one on the scale, skip the next question and go to the text box below.]

Using a scale of 1 to 10, where 1 is not at all and 10 is the most imaginable, how would you rate your experience of aesthetic enrichment?

1__ 2__ 3__ 4__ 5__ 6__ 7__ 8__ 9__ 10

Can you tell us more about why you gave this rating? (free text field)

2. Social differences bridged: We are interested in the bridging of social differences and how this might have occurred for you as a result of your participation in this activity.

By bridging social differences we mean the overcoming barriers and strengthening understanding between people who are from different social circles.

Having participated in this activity, I would like you to think about the sense of difference you feel from people outside your social circle now.

Using a scale of 1 to 10, where 1 is not at all and 10 is the most imaginable, how would you rate your sense of difference now?

1__ 2__ 3__ 4__ 5__ 6__ 7__ 8__ 9__ 10

Thinking back to how you felt before you participated in this activity, how would you rate the sense of difference then, using the same scale of 1 to 10?

1__ 2__ 3__ 4__ 5__ 6__ 7__ 8__ 9__ 10

Can you tell us more about why you gave this rating? (free text field)

3. About the respondent: To finish the interview, can you tell us two things about yourself?

What language/s do you speak at home? What is your postcode?.....

Interviewer to mark these options based on observations:

Approximate age range: young adult (18-30) / middle aged adult (30-55) / older adult (55+)

Gender: Male Female Other/unsure
